Tutorial 1- 2026-2027- Solutions

Exercise 1:

Element	Component	Nature
A MySQL database containing customer shipping records.	Data	Technological
A System Analyst designing a new user interface.	People	Human
Microsoft Windows 11 running on an office laptop.	Software	Technological
A step-by-step company policy detailing how to process an invoice refund.	Processes	Non Technological
A Solid State Drive (SSD) installed inside a desktop tower.	Hardware	Technological
Database Administrator (DBA)	People	Non Technological
Adobe Photoshop	Software	Technological
Customer shipping address record	Data	Technological
Standard guidelines for handling data breaches	Processes	Non Technological
Network Switch	Hardware	Technological
Windows Server 2022	Software	Technological
Inventory log spreadsheet file	Data	Technological
IT Helpdesk Technician	People	Non Technological

Exercise 2:

Software	Category
Asana	productivity
Visual Studio	programming
Malwarebytes	utility
Figma	productivity
NetBeans	programming
WinZip	utility
Microsoft Teams	productivity
pgAdmin	productivity
ClickUp	productivity
Microsoft Excel	productivity
Ubuntu Linux:	operating system

Software	Category
Defragment and Optimize Drive	utility

Exercise 3:

Functionality	Minimum Requirement
Casting a local slide presentation to a smart projector over office Wi-Fi	**Local network**
Transferring a large dataset via an Ethernet cable to a physical server next to your desk	**Local network**
Checking real-world currency exchange rates via a live web API widget	**Internet**
Processing a customer's credit card payment via a cloud gateway terminal (Stripe/PayPal)	**Internet**
Running a security scan on your computer using locally installed antivirus definitions	**No network**
Retrieving shared configuration files from a localized network-attached drive (NAS)	**Local network**
Hosting a live video webinar with remote clients across the country	**Internet**
Sending a document to a network-connected office printer down the hallway	**Local network**
Downloading the latest security patch directly from the Microsoft Update servers	**Internet**

Exercise 4:

Device	Category
Biometric Fingerprint Scanner	Input
Network Attached Storage (NAS)	Storage
Interactive Touchscreen Kiosk	Input-Output
VR Headset (Virtual Reality)	Input-Output
Laser Receipt Printer	Output
4G/5G Cellular Modem	Network Communication
Magnetic Stripe Card Reader	Input
